2026 CAR SHOW HIGHLIGHTS (EXHIBIT 2 OF 3)

Besides cars, there was also a category for legacy trucks. At top left is a 1970 Ford F100 pickup receiving a last minute shine by the owner. At top right is a sleek 1984 Chevrolet Corvette in gold metallic paint. Continuing at bottom left is a 2001 Chevrolet Camaro Super Sport convertible. At this age, it would now be eligible for licensing as a historic vehicle in Arizona. Assuming it meets other classification guidelines, plates issued by ADOT are made of copper. The last photo shows some of the costumes worn by our many car show visitors. There was an unconfirmed rumor floating around that the tall dragon was also one of the judges.
